

Photographs of Computer and Scanning Equipment
located within the office space at the Bureau of
Conveyance taken 4/14/07.

On Saturday, April 14, 2007, Dennis Ihara, Deputy Registrar, Bureau of Conveyance, (BOC), Department of Land and Natural Resources (DLNR), met Hilton J. Lui at his office and thereupon allowed him into the office space of the BOC.

At that time several photographs were taken of the Computer System which he believed to be owned by Title Guaranty of Hawaii consisting of a Computer Cabinet, Monitor and Keyboard. The computer system was a Dell computer which had a silver label mounted on the top. On the label were the words, Windows 2000 Pro 1-2CPU, serial number "X08-73013" and the numbers "V8P42-DTGMY-X6BTP-GDK6M-37X6J". This computer was located near the work area of Alan Smith who is one of the IT staff for DNLR. Of note was that on one side the pink slip of paper which had the words "TG" and other wording was now missing. Ihara also escorted Lui to the Scanning Room where photographs were taken of two separate Canon Model DR/9080C scanners each hooked on to a Viewsonic Graphic Series G225f monitor which were also hooked on to Optiplex GX110 hard drive cabinets, Pentium Processors III. The serial numbers on the rear side of the hard drive cabinets were "V8DXJ-2VB9Y-2DXCX-43F4X-FX6C8" and "JB3RG-QG28Y-HVDYV-4R7TQ-72W3D".
